Language Assistance Plan

Plan Components

As a recipient of federal US DOT funding, the **Access Brown County Public Transit** is required to take reasonable steps to ensure meaningful access to our programs and activities by limited-English proficient (LEP) persons.

Limited English Proficient (LEP): Refers to persons for whom English is not their primary language and who have a limited ability to read, write, speak or understand English. This includes those who have reported to the U.S. Census that they speak English less than very well, not well, or not at all.

Most individuals in Indiana read, write, speak and understand English. There are some individuals for whom English is not their primary language. If these individuals have a limited ability to read, write, speak, or understand English, they are considered limited English proficient, or “LEP.”

The **Access Brown County Public Transit** Language Assistance Plan includes the following elements:

- The results of the *Four Factor Analysis*, including a description of the LEP population(s), served.
- A description of how language assistance services are provided by language
- A description of how LEP persons are informed of the availability of language assistance service
- A description of how the language assistance plan is monitored and updated
- A description of how employees are trained to provide language assistance to LEP persons
- Additional information deemed necessary

Methodology

To determine if an individual is entitled to language assistance and what specific services are appropriate, the **Access Brown County Public Transit** has conducted a *Four Factor Analysis*¹ of the following areas: 1) Demography, 2) Frequency, 3) Importance and 4) Resources and Costs.

LEP Four Factor Analysis

- ✓ **Factor 1: Demography:** What is the number or proportion of LEP persons served and the languages spoken in the service area?

Overview

The first factor of the *Four Factor Analysis* is the basis of the Language Assistance Plan. It requires the **Access Brown County Public Transit** to review its US Census data to determine if it meets the *LEP Safe Harbor Threshold*.

¹ DOT LEP guidance <https://www.civilrights.dot.gov/page/dots-lep-guidance>

US Census and American Community Survey (ACS) Data²

The **Access Brown County Public Transit** did the following:

1. Inserted a copy of the **Access Brown County Public Transit** county LEP data in the Title VI plan. This data was found at:
<http://www.migrationpolicy.org/sites/default/files/datahub/LEPstate-countyData.xlsx>
 2. Analyzed the LEP demographic data for the **Access Brown County Public Transit** program and/or service area by calculating the *Safe Harbor Threshold* for two to three of the largest language groups identified other than English.
 - a. The *Safe Harbor Threshold* is calculated by dividing the population estimate for a language group that “Speaks English less than very well” by the total population of the county.
 - i. The *LEP Safe Harbor Threshold* provision stipulates that for each LEP group that meets the LEP language threshold (5% or 1,000 individuals, whichever is less) the **Access Brown County Public Transit** must provide translation of vital documents in written format for the non-English users.
 - ii. Examples of written translation of vital documents include the Title VI policy statement and/or Notice to the Public (Appendix 2), Title VI Complaint Procedure (Appendix 3), Title VI Complaint Form (Appendix 4), and ADA paratransit eligibility forms.
 3. Explained the results of the analysis of the county LEP data in the demographic section of the *Four Factor Analysis*.
- ✓ **Factor 2: Frequency:** How often does your staff come into contact with LEP persons?

Overview

LEP persons are persons identified as speaking English less than very well, not well or not at all. Just because a person speaks a language other than English doesn't mean they don't speak English or are identified as LEP. The summary below discusses the frequency with which **Access Brown County Public Transit** staff comes into contact with LEP persons. It also provides information on the how staff is instructed to meet the needs of LEP persons.

² The ACS publishes data in many forms on the Census Bureau American Fact Finder website
<http://factfinder2.census.gov/faces/nav/jsf/pages/searchresults.xhtml>

- ✓ **Factor 3: Importance:** How does the program, service or activity affect people's lives?

Overview

The summary below discusses how the **Access Brown County Public Transit** program and services impact the lives of person's within the community. The Section 5310 grantee will specify the community organizations that serve LEP persons, if available.

- ✓ **Factor 4: Resources and Costs:** What funding and other resources are available for LEP outreach?

Overview

The summary below discusses the low cost methods used by the **Access Brown County Public Transit** to provide outreach to LEP persons as well as train staff on Title VI and LEP principles.

Additional Required Elements

In addition to the *Four Factor Analysis (listed below as item #1)*, the Access Brown County Public Transit will address the following elements:

Item #2: A description of how language assistance services are provided by language

Item #3: A description of how LEP persons are informed of the availability of language assistance service

Item #4: A description of how the language assistance plan is monitored and updated

Item #5: A description of how employees are trained to provide language assistance to LEP persons

And, any additional information deemed necessary.

Summary of the Language Assistance Plan Components

Item #1 – Results of the Four Factor Analysis (including a description of the LEP population(s) served)

Factor 1 – Demography

The **Access Brown County Public Transit** provides transportation services in USA County (or counties).

The US Census Bureau – American Fact Finder (2008-2012) reports there are numerous languages spoken in USA County. Some of these languages include Spanish, German, Russian, Japanese, Hmong, and Vietnamese. After English, the second largest language group is Spanish.

The Safe Harbor Threshold is calculated by dividing the population estimate for a language group that “speaks English less than very well” by the total population of the county. The LEP Safe Harbor Threshold provision stipulates that for each LEP group that meets the LEP language threshold (5% or 1,000 individuals, whichever is less), the **Access Brown County Public Transit** must provide translation of vital documents in written format for non-English speaking persons.

In Brown County, with a population estimate of 14,500, 100 persons have identified themselves as Spanish speaking and “speaks English less than well”. This language group is less than 1% and below the 5% or 1,000 person thresholds. This means the **Access Brown County Public Transit** is not required to provide written translation of vital documents. All of the other language groups listed above are also below the safe harbor threshold. This means, at this time, the **Access Brown County Public Transit** is also not required to provide written translation of vital documents in these languages.

In the future, if the **Access Brown County Public Transit** meets the Safe Harbor Threshold for any language group, it will provide written translation of vital documents in such languages and also consider measures needed for oral interpretation.

Factor 2 – Frequency

The **Access Brown County Public Transit** will be trained on what to do when they encounter a person that speaks English less than well. The **Access Brown County Public Transit** will track the number of encounters and consider making adjustments as needed to its outreach efforts to ensure meaningful access to all persons and specifically to LEP and minority populations of the **Access Brown County Public Transit** programs and services.

The **Access Brown County Public Transit** provides rides to approximately 2,500 persons per year. While formal data has not been collected, the Access Brown County Public Transit has indicated it has encountered (0) zero LEP persons using the service within the last six months.

Factor 3 – Importance

The **Access Brown County Public Transit** understands an LEP person with language barrier challenges also faces difficulties obtaining health care, education or access to employment. A transportation system is a key link to connecting LEP persons to these essential services.

The **Access Brown County Public Transit** has identified activities and services which would have serious consequences to individuals if language barriers prevented access to information or the benefits of those programs. The activities and services include providing emergency evacuation instructions in our facilities, stations and vehicles and providing information to the public on security awareness or emergency preparedness.

The **Access Brown County Public Transit** assessment of what programs, activities and services that are most critical included contact with community organization(s) that serve LEP persons, as well as contact with

LEP persons themselves to obtain information on the importance of the modes or the types of services that are provided to the LEP populations.

Factor 4 – Resources and Costs

Even though the **Access Brown County Public Transit** does not have a separate budget for LEP outreach, the **Access Brown County Public Transit** has worked to implement low cost methods of reaching LEP persons. For example, the **Access Brown County Public Transit** has a community partner that has a Spanish speaking person on staff. This has ensured the **Access Brown County Public Transit** can provide assistance to LEP Spanish-speaking persons, if needed. In addition, the **Access Brown County Public Transit** will work with local advocacy groups to reach LEP populations.

Item # 2 – Description of how Language Assistance Services are Provided, by Language

The **Access Brown County Public Transit** has a community partner with a speaking person on staff. In addition, we work to ensure mechanisms are in place to reach LEP persons in the service area.

For example, any language barriers or LEP assistance will be identified through our intake process before a client begins services with our agency. At the time of intake, a translator will be made available to communicate our agency policies and procedures, including transportation. Additional tools will be determined at that time to assess the needs for future communication tools.

Item # 3 - Description of how LEP Persons are Informed of the Availability of Language Assistance Service

The **Access Brown County Public Transit** does the following to inform LEP persons of the availability of language assistance services: publishing timetables and route maps in languages other than English, provide pictograms and other symbols in relevant published materials, striving to employ multilingual staff, and creating and posting multi-language announcements, posters and other information.

The **Access Brown County Public Transit** also attends Latin festivals and functions in the area for the LEP population. The cost is relatively low but the ability to reach the LEP population is high. The **Access Brown County Public Transit** will continue to reach out to LEP populations by visiting ethnic meal sites and/or community centers and groups, local non-English speaking churches, and local stores or markets catering to immigrants/non-English speaking populations

Item # 4 – Description of how the Language Assistance Plan is Monitored and Updated

The **Access Brown County Public Transit** reviews its plan on an annual basis or more frequently as needed. In particular, the **Access Brown County Public Transit** will evaluate the information collected on encounters with LEP persons as well as public outreach efforts to determine if adjustments should be made to the delivering of programs and services to ensure meaningful access to minority and LEP persons.

Item # 5 - Description of how Employees are Trained to Provide Language Assistance to LEP Persons

***Access Brown County Public Transit** employees are educated on the principles of Title VI and the **Access Brown County Public Transit** Language Assistance Plan. New employees will be provided guidance on the needs of clients served and how best to meet their needs.*

An important discussion point is that of language assistance. If a driver, dispatcher or employee needs further assistance related to LEP program participants, her/she will work with Kim Robinson, Title VI Coordinator to identify strategies to meet the language needs of the participants of the program or service.
